

AFPR1ME GROWTH*[®] Variable Annuity - American Fidelity Separate Account A
August 31, 2026 Monthly Performance

Annuities can provide an effective and systematic method of saving for retirement. Variable annuities offer growth potential that can help build wealth by keeping up with inflation. Variable annuities also offer the potential of greater returns in exchange for a higher degree of risk. The *AFPR1ME GROWTH*[®] Variable Annuity was designed for people seeking long-term tax deferred earnings, generally for retirement savings.

Investment in a variable annuity contract is subject to risks, including possible loss of the principal amount invested. The shorter the time period for the investment, the greater the possibility of loss. These investment accounts are not insured by the U.S. Government or any other agency.

The performance data presented represents past performance and is not a guarantee of future results. Current performance may be lower or higher than the performance presented here. Investment return and principal value will fluctuate so that an investors units when redeemed, may be worth more or less than their original cost.

You should consider the investment objectives, risks, charges, and expenses carefully before investing. The Separate Account A and portfolio prospectuses contain important information. Please contact your American Fidelity representative to request the prospectuses or call American Fidelity directly at 800-662-1113. You should read the Separate Account and portfolio prospectuses carefully before investing.

Because of market volatility, current fund performance may have changed since these returns were compiled. Withdrawals prior to age 59½ may be subject to ordinary income tax and a 10% IRS penalty.

AFPR1ME GROWTH® Variable Annuity - American Fidelity Separate Account A*
August 31, 2026 Monthly Performance ⁽¹⁾

American Fidelity Separate Account A Inception Date: January 1, 1970			Standardized Average Annual Total Returns ⁽²⁾					
Large Cap Blend Fund	Date Included In Separate Account A	Portfolio Inception Date	1 Year ⁽³⁾	3 Years ⁽³⁾	5 Years ⁽³⁾	10 Years ⁽³⁾	Since Portfolio Inception ⁽³⁾	Since Portfolio Inclusion ⁽⁴⁾
Vanguard VIF Total Stock Market Index Portfolio	1-Dec-2014	8-Jan-2003	-0.34%	12.58%	6.69%	11.59%	9.23%	8.78%

- (1) The performance data presented assumes an original investment amount of \$1,000 and assumes that the portfolio was offered for the periods indicated. Performance is calculated by determining the average annual rate of return over each period, less applicable fees and expenses.
- (2) Standardized performance reflects the deduction of a one-time initial certificate fee, the front-end sales charge, administrative and minimum death benefit expenses, per payment charges, and annual Separate Account and portfolio operating expenses. See the portfolio and Separate Account prospectuses for specific details.
- (3) May be derived from the portfolio's performance prior to being offered by Separate Account A if portfolio inception date is before the date of inclusion. Pre-dated fund performance is hypothetical because the portfolio was not available in the variable annuity prior to its inclusion date.
- (4) Reflects Standardized Average Annual Total Return since inclusion in Separate Account A. If less than one year, reflects total return for the period and is not annualized.
